To Whom It May Concern:

My name is Christopher Case, a clinical endocrinologist in Jefferson City, MO, serving on the medical advisory board for the Robard Corporation. I am writing this letter for strong recommendation for Becky Anderson and her clinical team. I have known Mrs. Anderson for the past nine years through our interactions in national obesity meetings and involvement in evaluating day to day management of weight management clinics. Her clinic continues to provide quality outcomes using the latest advances in obesity treatment, including a multidisciplinary approach.

Mrs. Anderson is a leader in obesity management, especially in establishing many of her satellite clinics, and has provided her advice for our weight management clinic and dozens of others across the country. She has exceptional business and communication skills as well as being highly regarded by her clinical staff. I have extreme confidence in her vision and her continued successes.

Please let me know if you have any questions.
